

Accessibility means the quality of being easy to obtain or use or the quality of being easily understood or appreciated. Accessibility addresses discriminatory aspects related to equivalent user experience for people with disabilities. it focuses on people with disabilities.

Accessibility usually helps disable people. For example, blind people or who don't have hand can use phone with voice command this is also beneficial for the people who are not disable and they can use mobile while working too. In this way it is beneficial for people without disabilities too.
